Audit & KYC

The \$MELMO token places paramount importance on security and transparency. To ensure the highest standards, we engaged Cyberscope, an industry leader, to conduct a comprehensive smart contract audit and KYC verification of our team members. The smart contract audit meticulously examines our code for vulnerabilities, ensuring the integrity and reliability of our token transactions. This audit enhances user confidence by safeguarding against potential exploits. Additionally, the KYC process verifies the identities of our team, promoting transparency and accountability. By partnering with Cyberscope, we demonstrate our commitment to a secure and trustworthy platform for our users. This proactive approach not only protects our community but also fosters long-term trust and stability for the \$MELMO token ecosystem.
